BOARD CERTIFICATION OVERVIEW

The National Certification Board for Therapeutic Massage & Bodywork (NCBTMB) is a nationally accredited credentialing organization formed to set higher standards for those who practice therapeutic massage and bodywork. It does this through a nationally recognized certification program—Board Certification. Board Certification represents the highest attainable credential within the profession; it is an advanced credential separate from entry-level massage therapy state licensure.

NCBTMB offers one examination for certification, the Board Certification Examination for Therapeutic Massage and Bodywork (BCETMB). NCBTMB has included a content outline for the BCETMB within this handbook. The eligibility criteria for Board Certification can be found in the section titled, “Eligibility Requirements,” of this handbook. Please review these criteria carefully before submitting your application to test.

Once you have become Board Certified, you will join thousands of other massage and bodywork professionals who are committed to fostering higher standards of ethical and professional practice in the delivery of therapeutic massage and bodywork services.

NCBTMB contracts with Prometric, an independent testing company, to administer the Board Certification Examination. Experts at Prometric work closely with NCBTMB to develop the exam that is used to evaluate the knowledge of therapeutic massage and bodywork professionals.

Prometric also scores the exam and sends the results to NCBTMB. NCBTMB oversees Prometric’s activities to assure that all components of the examination process meet national standards.

GENERAL EXAM INFORMATION

- Provide a copy of a valid government ID.
- Pass a criminal background check (performed by NCBTMB).
- Agree to uphold NCBTMB's Standards of Practice and Code of Ethics.

NCBTMB CANDIDATE HANDBOOK

If you practice in a state that does not require state licensure:

- Provide the name, city and state of the massage school you attended.
- Upload an official school transcript.
- Provide a copy of a valid government ID.
- Pass a criminal background check (performed by NCBTMB).

You must be able to prove that you have graduated from a formal training program. This proof must be in the form of an original official school transcript. Be sure to include all other documentation with your online application. NCBTMB reserves the right to request verification if needed.

All education and training courses must have been completed satisfactorily or have a passing grade. If your school did not offer an ethics course, your school will need to explain where in the transcript you received the six clock hours of instruction in ethics. For example, the school might be able to explain that "six clock hours of ethics were taught in the course called Professional Business Practices."

You must have graduated from the program and met all requirements before you will be eligible to sit for the exam. For example, if you are enrolled in an 800-hour program, you must complete ALL 800 hours.

Portfolio Review:

If you have not graduated from an NCBTMB Assigned School, you may apply through Portfolio Review.

It is important to note that all students who attend a school outside of the United States **MUST** apply through the Portfolio Review process.

The Portfolio Review Process allows you to put a portfolio together of all your training. The Portfolio Review team reviews your portfolio to see whether the training that you have is equivalent to the training you would get in a formal program. An additional \$75 fee is required. Transcripts proving your education are required along with your application.

Should you pursue Portfolio Review, you are still required to demonstrate completion of a minimum 500-hour education. When applying via Portfolio Review, you must demonstrate completion of minimum hours in the following categories (totaling 500):

- 125 hours of Anatomy, Physiology, Kinesiology
- 40 hours of Pathology
- 200 hours of hands-on, Western-based massage therapy lab/clinic
- 4 hours of Business
- 6 hours of Ethics
- 125 hours of massage therapy education that completes the program

Please note: NCBTMB will only accept outlined acceptable core curriculum content that is hands-on and Western-based. For information on acceptable core curriculum content, visit www.ncbtmb.org and access [acceptable course curriculum](#).

Additionally, candidates must have received massage therapy education and meet the minimal criteria. Specifically, the program of study must have included:

-

NCBTMB CANDIDATE HANDBOOK

- 300 hours or 60% delivered In-Class (face-to-face); must be science-based information
- 200 hours or 40% of hands-on instruction delivered in-class (face-to-face) only

If your original program of study did not contain the above hours or educational components, you may apply external education earned through:

- College or University medical and/or business courses
- CE completed through NCBTMB Approved Providers

If you are a healthcare professional, or previously completed a related allied healthcare training program (e.g., nursing), you are required to demonstrate the following:

- Copies of your original allied health transcripts
- Proof of completion of a minimum 200 hours in a massage therapy school or with an NCBTMB Approved Provider (via CE)

Please Note: Regardless of how you earn the required minimum 500-hours of education, you may be requested to provide the syllabus and/or learning outcomes for completed courses if course content is not obvious. Be prepared to provide this information ahead of time to avoid delays in the processing of your application.

Formal training must be received from a state-licensed/approved/exempt training/education institution.

All documentation must be submitted in English.

If, for any reason, any part of your application is denied, refunds will not be issued.

CRIMINAL CONVICTION POLICY

Massage therapists are placed in a position of trust with clients. These therapists have unsupervised physical contact with their clients. A violation of this trust is in direct opposition to the Standards of Practice and Code of Ethics of NCBTMB. Below is a three-tiered review system for NCBTMB certification applicants with a conviction, plea of guilty, nolo contendere, or no contest to any misdemeanors and felonies.

Convictions Resulting in Denial of Certification—No Appeal

Convictions of certain crimes present an unreasonable risk to clients. Board Certification will be denied in the following cases with no possibility of appeal:

- Sexual misconduct where the victim’s consent was not given, such as forcible rape.
- Murder or attempted murder, manslaughter (except involuntary manslaughter).
- Other felony convictions of violence against persons, committed within the last seven years including—but not limited to—assault or battery with a dangerous weapon, aggravated assault or battery, or kidnapping.

Convictions Resulting in Denial of Certification—Appealable

Convictions of certain crimes present an unreasonable risk to clients. Therefore, any NCBTMB applicants with a history of any felony or misdemeanor crime set forth below shall be initially denied certification in all cases. With the exception of convictions referenced above, these certification decisions may be appealed:

NCBTMB CANDIDATE HANDBOOK

- Sexual Crimes: Crimes involving prostitution or other forms of sexual misconduct not referenced in the No Appeal Convictions.
- Violent Crimes: Serious crimes of violence against persons, committed seven years ago or more, including—but not limited to—involuntary manslaughter, kidnapping, arson, and aggravated assault and/or battery with a dangerous weapon.
- Work Release, Parole, Probation: Applicants currently on work release, parole, or felony probation.
- Illegal Drugs (Felony): Felonies involving illegal drugs and/or controlled substances, including unlawful possession or distribution or intent to distribute unlawfully, all substances set forth in Schedules I through V of the Uniform Controlled Substances Act, as amended.
- Illegal Drugs (Misdemeanor): Misdemeanors involving illegal drugs and/or controlled substances, including all substances set forth in Schedules I through V of the Uniform Controlled Substances Act, as amended.
- DUIs: Crimes involving (but not limited to) driving while under the influence or ability impaired after a 3rd conviction.
- Assault and/or Battery: Misdemeanors involving assault and/or battery (without a dangerous weapon).
- Crimes Against Property (Felony): Felonies involving serious crimes against property, such as grand larceny, robbery, burglary, embezzlement or fraud.
- Crimes Against Property (Misdemeanor): Misdemeanor crimes against property, such as larceny, burglary, robbery, embezzlement or fraud;

Possible Denial of Certification

Applicants with convictions that do not include any of the conditions set forth above may be denied certification after careful consideration of the following factors:

- The seriousness of the crime;
- Whether the crime was violent in nature;
- Whether the applicant has multiple convictions;
- Whether the crime involved a minor, the elderly, or a person of diminished capacity;
- How much time has elapsed since the crime was committed;
- Whether the crime relates to client care;
- Whether the applicant was truthful and not misleading in explaining the terms and circumstances of their felony conviction.

Appeal to Ethics and Standards Committee:

Applicants who have been denied due to the criminal conviction policy may file an appeal in writing to the Ethics and Standards Committee no later than 30 calendar days after the date of the denial notification. Applicants who have been denied due to No Appeal convictions of this policy may not appeal the denial of their application.

NCBTMB CANDIDATE HANDBOOK

Any violation of testing policies and procedures may result in dismissal from the testing center, cancellation of exam scores and forfeiture of eligibility for certification and exam fees. Videos explaining what to expect may be found on the Prometric website at <https://www.prometric.com>.

All eligible candidates will receive an email with the subject line, "Your Board Certification Exam Instructions." Candidates can schedule appointments by calling Prometric at 1-800-350-7076 or using its online scheduling service at www.prometric.com (please access the menu on the left of the page titled, "Actions"). If your eligibility includes special ADA accommodations, you MUST schedule your exam by calling Prometric directly.

Be sure you plan your exam date well in advance. You should also pick alternate dates and times, just in case your first choice is not available. Exam appointments are subject to change if the test center is closed for some reason.

RESCHEDULING OR CANCELING YOUR EXAM

Exam Scheduled

To reschedule an exam by phone, you must notify Prometric, NCBTMB's testing partner, at 1-800-350-7076 or www.prometric.com (please access the menu on the left of the page titled, "Actions") within one month prior to your scheduled exam.

Please be aware that cancelling your exam appointment instead of rescheduling within your 90-day window, cancels your entire eligibility window. You will not be able to schedule again and will be required to reapply and pay all application fees with NCBTMB. Please note the below cut-off dates and associated fees:

- **30 or more days prior to the scheduled appointment:** No additional charges
- **29-5 days prior to scheduled appointment:** Prometric will collect a \$35 fee at the time of rescheduling/cancelling exam appointment.
- **4 days or less prior to scheduled appointment:** Full test fee will be retained. No refunds issued.

After you have cancelled your exam with Prometric, you must notify NCBTMB of the cancellation.

Exam NOT Scheduled

If you have not scheduled your exam and wish to receive a partial refund of your application fee, **you must contact NCBTMB at 1-800-296-0664 or via email at info@ncbtmb.org within 30 days of NCBTMB's receipt of your payment.** Your refund, minus a \$75 processing fee along with a \$25 background check fee, will be sent within six weeks of the written request. Once NCBTMB receives your refund request, you will no longer be eligible to take the exam.

If your request to cancel your application is not received by your eligibility expiration date, and you do not sit for the examination, you forfeit your entire application and all examination fees. If you decide to take the examination at a later date, you will need to reapply as a new candidate. You will have to resubmit your application and payment and abide by all current policies, requirements, and applicable fees.

MISSING YOUR SCHEDULED EXAM

If on the day you are scheduled to take the exam you do not appear, and you have not rescheduled or canceled your exam as outlined above, you will forfeit the full exam fee.

NCBTMB CANDIDATE HANDBOOK

If you missed your scheduled exam appointment, you will need to submit for retake along with the application fees. Once this is processed, you will be reset for a new ninety-day eligibility period.

Extenuating Circumstances

In rare circumstances, you may be allowed to reschedule the exam, free of charge, one time only.

Documentation will be required in all instances. There are five acceptable reasons for missing a scheduled exam:

- Serious illness—either you or an immediate family member
- Death in the immediate family
- Traffic accident in route to the exam site
- Unexpected military duty call-up
- Natural disaster (hurricane, earthquake, flood, blizzard, etc.) (Note: Not allowable are isolated events including power outages, high winds, icy roads, etc.)

If your reason is accepted, you will be allowed to reschedule your exam, free of charge, one time only. You will need to call NCBTMB at 1-800-296-0664 and state your reason for missing the exam. This must be done no later than **four business days** after the missed exam date. NCBTMB reserves the right to request additional evidence to support your reason for missing the exam.

ACCOMMODATIONS FOR CANDIDATES WITH DISABILITIES

NCBTMB and Prometric pledge to comply with the provisions of the Americans with Disabilities Act, as amended (42 USC Section 12101, et. seq.), and with Title VII of the Civil Rights Act, as amended (42 U.S.C. 2000e, et seq.), to the best of their ability. If you need special accommodations because of a disability, you may ask for special testing services. This request must be submitted as part of the application for Board Certification and is on the menu of application requirements. All requests are handled on an individual basis.

If you are requesting special accommodations, you must submit a letter from an appropriate health care professional that is licensed to evaluate the disability. The letter must be written on the healthcare professional's letterhead and include the professional's title, address, telephone number and date.

The letter must also include a diagnosis of the disability and explain why special testing accommodations are necessary. The letter must have an original signature from the professional and be dated no more than five years prior to application. Faxes and photocopies will not be accepted.

Official documentation regarding your disability must be submitted to NCBTMB at the time you apply. Special accommodations will be provided at no additional charge.

Policy on non-discrimination

NCBTMB does not discriminate against any person on the basis of race, color, ethnicity, national origin, religion, creed, age, gender, sexual orientation, marital status, medical condition, or physical disability.

COMPUTER BASED TESTING

You will take your examination using Computer Based Testing (CBT) technology. You do not need extensive computer experience to take the examination. At the beginning of your examination, a tutorial will be provided on how to take the test. You will be instructed on how to provide responses to the items that appear on the examination. Once you begin your test, you will not be able to go back to the tutorial section.

DO NOT click "End Exam" until you have completed the exam and all reviews.

NCBTMB CANDIDATE HANDBOOK

When “End Exam” is selected, the examination will end, and you will not be able to review or change any answers. Staff at the testing center will only be able to answer questions that you might have about CBT—they have no knowledge about the exam content. Prior to September 14, 2026, your exam results will be sent via email during the month of September 2026. After September 14, 2026, your exam will be scored, and you will receive an on-screen notification of having either passed or failed the exam as soon as you have completed it. You will also receive a diagnostic score report via email within 24 hours following completion. This is not an official score report.

EXAMINATION DAY

Arrival Time

You must arrive at the Test Center thirty (30) minutes before your scheduled appointment to complete the admission process required before testing begins.

What to Bring on Exam Day

Testing centers utilize biometric procedures for validating candidate identification. The candidate’s government issued photo ID will be scanned, the candidate will be photographed, and other security procedures will be enacted.

The candidate must present at least one form of identification, which must include a current, valid (not expired) government issued picture ID and your signature. This could include:

- Driver’s License
- Passport
- Military ID Card
- State ID Card

The primary form of identification listed above MUST be issued by the national government in the country where you are testing. If your government issued identification is from a country other than the country in which you are testing, you must present your passport for identification. The passport must be current (not expired).

A Social Security Card, Visa, Work/School ID, etc. are **NOT** acceptable forms of identification. You do not need to bring your Confirmation Letter to the testing site.

Does your ID match your application name?

NCBTMB and our test vendor, Prometric, will not allow identification (ID) discrepancies. Please make sure that your photo ID and the name on the NCBTMB application do not result in any of the following discrepancies:

Substitute for either the first or last name are not permitted

- “Smith” to “Jones”
- “Mary” to “Margaret”

Incorrect letters on any documentation

- “Diller” vs. “Ditter”

Maiden name as a middle name on one document, while given middle name is used on another document

- “Mary Elizabeth Smith” vs. “Mary Jones Smith”

NCBTMB CANDIDATE HANDBOOK

Legal name changes must be approved by NCBTMB prior to scheduling an appointment. Name discrepancies are one of the most common reasons why applicants are not allowed to test. If you encounter one of the ID/name discrepancies above, or if the name on your application does not match your current/valid Government I.D., the Prometric testing center has been instructed to not allow you to test. You will forfeit your exam and all associated fees. Please contact NCBTMB to discuss how to resolve these ID/name discrepancies if this relates to you.

Late Arrival

Candidates who arrive late for their exam will lose their reservation. They will be considered absent. Candidates must arrive at the Test Center thirty (30) minutes before their scheduled appointment to complete the admission process required before testing begins.

Inclement Weather

If severe weather or a natural disaster makes the testing center inaccessible or unsafe the exam will be canceled. Exams that are canceled due to severe weather will be rescheduled as soon as possible, without additional charge. Candidates should contact Prometric to determine if the center is closed and for rescheduling information.

What to Do if Your Test Center is Closed

Sometimes unforeseen circumstances require a test center to unexpectedly close. Should this happen, Prometric will try contacting you by e-mail and by telephone within 48-72 hours to reschedule your appointment.

Exam Security

When you arrive at the testing center, you will be asked to sign in on a test center log, present your identification, and submit biometric samples (such as fingerprint or palm scan). Failure to comply with any of these requirements may result in your dismissal from the testing center and/or forfeiture of eligibility to test.

RESULTS & SCORE REPORTS

How Your Exam is Scored

The Exam is graded via a Scale Score. Each question is graded as right or wrong; no partial credit is awarded.

What to Expect Once You Finish Your Exam

Once you have finished taking the exam, the computer will score your performance on the test. The diagnostic score report will be issued to you via email after you have completed the test. Your performance will be communicated as either 'Pass' or 'No Pass.'

A candidate's performance on examinations shall remain confidential unless otherwise stipulated by the examinee.

If you wish to obtain an official score report, you can do so by completing the request found in your account profile by clicking Account and then My Participation. There is a \$40 fee per score report.

If you fail the exam, you will be given diagnostic information about your overall performance. The information will identify areas of weakness, should you wish to try again. The diagnostic score report will also provide information on how to apply for a future exam.

Unlike cases of individual candidate misconduct, occasionally testing irregularities occur that affect a group of test takers. Such problems include, but are not limited to administrative errors, defective equipment or materials, improper access to test content and/ or the unauthorized general availability of test content, as well as other disruptions of test administrations (e.g., natural disasters and other emergencies). In such cases an incident report must be filled out before leaving the Prometric test facility.

When group-testing irregularities occur, Prometric will conduct an investigation to provide information to NCBTMB. Based on this information, NCBTMB may direct Prometric either not to score the test or to cancel the

NCBTMB CANDIDATE HANDBOOK

test score. When it is appropriate to do so, NCBTMB will arrange with Prometric to give affected test takers the opportunity to take the test again as soon as possible, without charge. Affected test takers will be notified of the reasons for the cancellation and their options for retaking the test.

NCBTMB's appeals process does not apply to group testing irregularities.

IF YOU FAIL THE EXAM

If you fail the Certification Examination, you may retake it after 45 days from the time you took the previous test. You may take the Board Certification exam two times within a six-month period.

NCBTMB's Policy on Challenging Results

Candidates who fail the examination and believe this was due to an error in electronic scoring will be directed to the testing vendor for questions. Following completion of the examination, candidates may comment in writing on any question(s) they believe contain errors in content. Comments will be forwarded to the NCBTMB CEO. If the CEO judges that an item(s) should not be scored, all affected candidates will be notified promptly. Candidates whose status changes from "fail" to "pass" will be issued board certification provided they comply with all other requirements.

If you need to challenge the exam results based on the content of the exam, contact NCBTMB directly, in writing, at info@ncbtmb.org.

An applicant shall have thirty (30) days to file a written request for an appeal following receipt of such notice that they were unsuccessful in their attempt at any NCBTMB examination.

Exam Attempt Limits

A candidate can only take the board certification exam a total of five times.

Appeals to the Certification Board

Within 30 days of the date of the denial of a request to take the exam more than five times, an applicant may submit a written notice of appeal of the testing decision to the CEO. The notice of appeal must state the reasons why the applicant believes they should be allowed to take the exam again. The Board will consider the appeal. In all cases, the decision of the Board is final.

Receipt of Complaint

Upon receipt of a complaint, a notice will be sent to the complainant informing them that the complaint has been received and that it will be processed according to the rules and procedures of the Ethics and Standards Committee.

Initial Evaluation of Complaint

Within forty-five (45) days of receiving a legitimate complaint in compliance, the committee shall evaluate the complaint and determine whether the allegations in the complaint, if true, would constitute unethical conduct. If the committee determines that the allegations, if true, would constitute unethical conduct, the complaint shall be investigated. No committee member shall consider, evaluate or help determine the validity or disposition of a complaint if such committee member sufficiently knows any material party to the complaint, is in direct competition with the complainant, BCTMB® certificant or applicant, or otherwise should be recused due to an existing or potential conflict of interest.

Investigative Procedure.

Initial Evaluation of a Complaint. When a complaint is brought against a BCTMB® certificant, the staff liaison will send the complaint information to NCBTMB legal counsel. Counsel will review the information submitted for relevancy and direct the staff liaison to send the appropriate information to the committee.

Informing BCTMB® Certificant of Investigation. The response shall include a detailed description of the facts surrounding the allegations contained in the complaint and the situation giving rise to the complaint. Failure to respond to the complaint will not constitute a waiver of the BCTMB® certificant's or applicant's right to appeal any sanction imposed by the committee in response to the complaint. Failure to respond may be considered as a factor by the committee when considering the merits of the complaint. Moreover, the BCTMB® certificant's or applicant's, failure to respond shall not prevent the investigative team from completing its investigation or prevent the committee from taking action based on the information available.

Assignment to Investigative Team. In the event that the committee determines that a complaint warrants investigation, such complaint shall be investigated by an investigative team of which the chair shall assign members. The committee may indicate key questions and issues that it identified in its review of the complaint to the investigative team though the investigative team shall not be required to limit its investigation solely to these questions and issues. In these cases, the staff liaison will work with NCBTMB legal counsel to develop a list of information needed from the involved parties. Legal counsel will review the submitted information for relevancy before the staff liaison submits the documents to the committee.

Conflict of Interest. No investigative team member shall consider, evaluate or help determine the disposition of a complaint if such investigative team member sufficiently knows any material party to the complaint, is in

The interview shall be informal in nature. Failure by a BCTMB® certificant or applicant to participate in an interview with the investigative team shall not constitute waiver of any right to appeal under these rules and procedures. The BCTMB® certificant's failure to participate in the interview may be considered as a factor by the investigative team. A summary of the interview will be made by the investigative team and shall be included with the investigative team report to the committee. The BCTMB® certificant's or applicant's failure to participate in a telephone interview shall not prevent the investigative team from submitting its report to the committee or prevent the committee from taking action based on the information available.

Report to Committee. Upon the completion of its investigation, the investigative team shall submit a written report of the investigation to the committee. The report must include the names of the committee members who participated in the investigation, a description of the facts of the situation that gave rise to the complaint, a description of the unethical conduct, if any, and the Code sections and/or Standards violated, if any. STANDARDS OF PRACTICE

Background

The purpose of the National Certification Board for Therapeutic Massage & Bodywork, Inc. (NCBTMB) is to foster high standards of ethical and professional practice in the delivery of services through a recognized credible certification program that assures the competency of practitioners of therapeutic massage and bodywork.

These Standards of Practice ensure that Certificants are aware of, and committed to, upholding high standards of practice for the profession. Also, the Standards of Practice are meant to assist members of the general public, including consumers, other health care professionals, and state and municipal regulatory agencies or boards with understanding the duties and responsibilities of NCBTMB Certificants.

NCBTMB developed and adopted these Standards of Practice to provide Certificants with a clear statement of the expectations of professional conduct and level of practice afforded the public in, among other things, the following areas: Professionalism, Legal and Ethical Requirements, Confidentiality, Business Practices, Roles and Boundaries, and Prevention of Sexual Misconduct and Inappropriate Touch. These Standards of Practice were approved and ratified by the NCBTMB Board of Directors, representatives of the Certificant population and key stakeholders of the NCBTMB.

Preamble

These Standards of Practice for the profession of therapeutic massage and bodywork are the guiding principles by which Certificants conduct their professional practice. These principles help to assure that all professional behaviors are conducted in an ethical, compassionate, and responsible manner. Through these Standards of Practice, NCBTMB seeks to establish and uphold high standards, traditions, and principles of the practices that constitute the profession of therapeutic massage and bodywork. These Standards of Practice are enforceable guidelines for professional conduct, and therefore, are stated in observable and measurable terms intended as minimum levels of practice to which Certificants are held accountable. Upon submission of the application for the Board Certification Examination, each applicant for certification must agree to uphold and abide by the NCBTMB Code of Ethics, Standards of Practice and applicable policies. Those Certificants who fail to comply with the Code of Ethics and these Standards of Practice shall be deemed to have engaged in professional misconduct which may result in sanctions, or other appropriate disciplinary actions, including the suspension or revocation of certification.

NCBTMB Certificants are obligated to report unethical behavior and violations of the Code of Ethics and these Standards of Practice they reasonably and in good faith believe have been performed by other NCBTMB Certificants.

NCBTMB requires Certificants to conduct themselves in a highly professional and dignified manner. NCBTMB will not consider and/or adjudicate complaints against Certificants that are based solely on consumer related issues

JOB TASK ANALYSIS EXPLAINED

A job analysis study is conducted on a scheduled cycle to make sure the exams are current. The most recent job analysis study refers to procedures designed to obtain descriptive information about the tasks performed on a job and the knowledge, skills, or abilities requisite to the performance of those tasks. The specific type of information collected during a job analysis study is determined by the purpose for which the information will be used.

For purposes of developing credentialing examinations, a job analysis study should identify important tasks, knowledge, skills, or abilities deemed important by massage therapy professionals.

The use of a job analysis study (also known as practice analysis, role and function study, or role delineation) to define the content domain(s) is a critical component in establishing the content validity of the certification. Content validity refers to the extent to which the content covered by an examination is representative of the task and knowledge of a job (tasks, knowledge, skills, or abilities).

A well-designed job analysis study should include the participation of a representative group of subject matter experts who reflect the diversity within the profession. Diversity refers to regional or job context factors and to factors such as experience, gender, and race/ethnicity. Demonstration of content validity is accomplished through the judgments of subject matter experts. The process is enhanced by the inclusion of large numbers of experts who represent the diversity of the relevant areas of expertise.

The Standards for Educational and Psychological Testing³ (2014) (The Standards) is a comprehensive technical guide that provides criteria for the evaluation of tests, testing practices, and the effects of test use. It was developed jointly by the American Psychological Association (APA), the American Educational Research Association (AERA), and the National Council on Measurement in Education (NCME). The guidelines presented in The Standards, by professional consensus, have come to define the necessary components of quality testing. As a consequence, a testing program that adheres to The Standards is more likely to be judged to be valid and defensible than one that does not.

As stated in Standard 11.13,

"The content domain to be covered by a credentialing test should be defined clearly and justified in terms of the importance of the content for credential-worthy performance in an occupation or profession. A rationale and evidence should be provided to support the claim that the knowledge or skills being assessed are required for credential-worthy performance in that occupation and are consistent with the purpose for which the credentialing program was instituted.... Typically, some form of job or practice analysis provides the primary basis for defining the content domain..." (pp 181-182)

The job analysis study for NCBTMB was designed to follow the guidelines presented in The Standards and to adhere to accepted professional practice.
